

COMMERCIAL BUILDINGS

NORTH AMERICA'S LEADING PROVIDER
OF COMMERCIAL, INDUSTRIAL, AND
RESIDENTIAL STEEL BUILDINGS

NORSTEEL *PREFABRICATED* BUILDINGS ARE IDEAL FOR COMMERCIAL BUILDINGS

Norsteel has been built on a foundation of honesty and integrity. Over the years we have established ourselves as North America's leading supplier of award-winning, pre-engineered steel buildings. Our structures are designed, engineered, and fabricated in state-of-the-art manufacturing plants, which means we can deliver your finished product weeks faster than most others. All of our products are long-lasting, durable, and backed by industry-leading warranties.

Commercial buildings are a place for companies to house their businesses. As varied as businesses can be from one another, their buildings are as well. Priorities shift between business areas, making customization essential in the design of a commercial building. Climate and temperature controls are important as well to ensure the comfort of employees and shoppers alike. The security and durability provided by steel buildings keeps the exterior looking great and the interior safe for decades to come.

STEEL COMMERCIAL BUILDINGS

Steel is the perfect fit for all types of commercial buildings. It provides climate control, physical security, and options to design your facility to best suit your needs. The interiors of these buildings must be customizable to meet the unique needs of the business they are housing. Steel offers the strength and durability needed to withstand heavy use and customer traffic, requiring less maintenance over time than other materials. Examples of commercial buildings include:

- Restaurants
- Retail stores
- Repair shops
- Convenience stores
- Car dealerships
- Coffee shops and cafes
- Medical centres

NORSTEEL METAL BUILDING SYSTEMS: THE PERFECT SOLUTION

Many commercial buildings require a large open space to hold product and shoppers alike, but also need smaller areas for requirements that may include administrative offices, washrooms, and change rooms.

A Norsteel building is the ideal choice for today's commercial buildings, offering clear advantages over other common materials such as wood and masonry. The flexibility of our pre-engineered materials will save time and make sure that the space is customized to meet your specific needs.

THE NORSTEEL ADVANTAGE

REDUCED COST

Our pre-engineered materials make it easier and faster to assemble our buildings; this reduces the time needed and labour costs during construction. Lower maintenance expenses provide additional value

DESIGN CUSTOMIZATION

Our team of engineering experts help you design the building you want. Depending on the location, you can also expand or alter the structure over time.

SUSTAINABILITY

The steel used in Norsteel buildings is nearly 100% recyclable; this makes it cost-effective and leads to less reliance on valuable natural resources

PEACE OF MIND

You can rest easy knowing that Norsteel buildings are safe and secure, providing superior and long-lasting protection

NORSTEEL BUILDINGS

Call Norsteel Buildings today. Our dedicated Building Specialists will work with you to understand your specific needs and to design a custom steel structure that best addresses your exact requirements.
