

FARM BUILDINGS

NORTH AMERICA'S LEADING PROVIDER
OF COMMERCIAL, INDUSTRIAL, AND
RESIDENTIAL STEEL BUILDINGS

NORSTEEL *PREFABRICATED* BUILDINGS ARE IDEAL FOR FARM BUILDINGS

Norsteel has been built on a foundation of honesty and integrity. Over the years we have established ourselves as North America's leading supplier of award-winning, pre-engineered steel buildings. Our structures are designed, engineered, and fabricated in state-of-the-art manufacturing plants, which means we can deliver your finished product weeks faster than most others. All of our products are long-lasting, durable, and backed by industry-leading warranties.

Farm buildings come in many shapes and sizes. They are the cornerstone of modern-day agriculture and livestock industries, with a wide range of applications and specifications. In such demanding and competitive markets, farm owners need to trust that their buildings will stand the test of time, can be engineered to suit a wide range of needs, and are affordable.

STEEL FARM BUILDINGS

Steel is the perfect fit for all types of farm buildings. Whether being used for equipment storage, livestock shelter, or crop storage, steel provides a reliable solution for your building. It offers climate control and physical security to protect your valuable equipment, livestock, and crops. It is customizable to design your facility to best suit the many needs of farm buildings, including clear-span space for equipment storage and stalls for livestock.

The agricultural industry can be as demanding as it is rewarding, and you must be sure that every building on your property is going to reflect the quality of your work. You can depend on our durable, long-lasting steel buildings to keep your operations running smoothly throughout the years.

NORSTEEL METAL BUILDING SYSTEMS: THE PERFECT SOLUTION

Farm buildings need effective climate control systems in place to ensure that the livestock living there are comfortable, equipment is properly stored and maintained, and crops are in the proper environment.

A Norsteel building is the ideal choice for today's farm buildings, offering clear advantages over other common materials such as wood and masonry. The flexibility of our pre-engineered materials will save time and make sure that the space is customized to meet your specific needs.

THE NORSTEEL ADVANTAGE

REDUCED COST

Our pre-engineered materials make it easier and faster to assemble our buildings; this reduces the time needed and labour costs during construction. Lower maintenance expenses provide additional value

DESIGN CUSTOMIZATION

Our team of engineering experts help you design the building you want. Depending on the location, you can also expand or alter the structure over time.

SUSTAINABILITY

The steel used in Norsteel buildings is nearly 100% recyclable; this makes it cost-effective and leads to less reliance on valuable natural resources

PEACE OF MIND

You can rest easy knowing that Norsteel buildings are safe and secure, providing superior and long-lasting protection

NORSTEEL BUILDINGS

Call Norsteel Buildings today. Our dedicated Building Specialists will work with you to understand your specific needs and to design a custom steel structure that best addresses your exact requirements.
