

INDUSTRIAL BUILDINGS

NORTH AMERICA'S LEADING PROVIDER
OF COMMERCIAL, INDUSTRIAL, AND
RESIDENTIAL STEEL BUILDINGS

NORSTEEL *PREFABRICATED* BUILDINGS ARE IDEAL FOR INDUSTRIAL BUILDINGS

Norsteel has been built on a foundation of honesty and integrity. Over the years we have established ourselves as North America's leading supplier of award-winning, pre-engineered steel buildings. Our structures are designed, engineered, and fabricated in state-of-the-art manufacturing plants, which means we can deliver your finished product weeks faster than most others. All of our products are long-lasting, durable, and backed by industry-leading warranties.

Industrial businesses often require that large amounts of machinery and equipment be stored and properly maintained in a secure environment. Design flexibility is a must, as industrial buildings are as varied as the industries that require them. The options of clear-span space and climate control are important to consider when planning an investment into a building for your industry. These buildings should be constructed from a material that is sturdy and long-lasting, to continue to look and function well after decades of hard use.

STEEL INDUSTRIAL BUILDINGS

Steel is the perfect fit for all types of industrial buildings. It provides climate control, physical security, and options to design your facility to best suit your needs. The interiors of these buildings must be customizable to meet the unique needs of the industry they are serving and maximize workflow productivity. Steel offers the strength and durability needed to withstand heavy use and harsh weather conditions, requiring less maintenance over time than other materials. Examples of industrial buildings include:

- Manufacturing plants
- Oil and gas processing plants
- Recycling plants
- Lumber mills
- Industrial parks

NORSTEEL METAL BUILDING SYSTEMS: THE PERFECT SOLUTION

Many industrial buildings require large open spaces for equipment storage and manufacturing plant workflow setups, but may also want the flexibility to add in small areas such as administrative offices.

A Norsteel building is the ideal choice for today's industrial buildings, offering clear advantages over other common materials such as wood and masonry. The flexibility of our pre-engineered materials will save time and make sure that the space is customized to meet your specific needs.

THE NORSTEEL ADVANTAGE

REDUCED COST

Our pre-engineered materials make it easier and faster to assemble our buildings; this reduces the time needed and labour costs during construction. Lower maintenance expenses provide additional value

DESIGN CUSTOMIZATION

Our team of engineering experts help you design the building you want. Depending on the location, you can also expand or alter the structure over time.

SUSTAINABILITY

The steel used in Norsteel buildings is nearly 100% recyclable; this makes it cost-effective and leads to less reliance on valuable natural resources

PEACE OF MIND

You can rest easy knowing that Norsteel buildings are safe and secure, providing superior and long-lasting protection

NORSTEEL BUILDINGS

Call Norsteel Buildings today. Our dedicated Building Specialists will work with you to understand your specific needs and to design a custom steel structure that best addresses your exact requirements.
